◀ Convert Videos to 200+ Formats

With 370+ video & audio codecs, MacX goes beyond SD videos to cover multi-track HD videos, all the way up to **2K & 4K UHD videos**. Get on with all video processing in a jiffy and make contents (whether they are shot by drones, camcorders, or downloaded online) shareable and playable across all your devices. No extra codec required.

Supported video formats: MP4, MOV, HEVC, H.264, MPEG4, AVI, WMV, FLV, MKV, MTS, M2TS, TS, AVCHD, M4V, etc.
Supported audio formats: MP3, AAC, AC3, FLAC, iPhone ringtone, etc.

▶ One-Stop Video Converter for Any Devices

MacX offers the largest library of device-specific profiles (up to 410), running the gamut from phones and tablets to TVs and game consoles. Compress and convert any video to a resulting file perfectly sized for your device screen, covering Apple **iPhone/X/8 (Plus)**, iPad, iPod, Apple TV, Android Samsung, Huawei, Sony, Surface, and more, without tinkering with the complex settings manually.

The mammoth profiles also ready your video clips for uploading to YouTube, Facebook, Instagram, etc without a hitch.

◀ Decode & Encode HEVC/H.265 with Better Quality

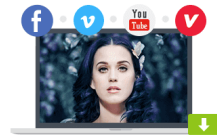

MacX takes the lead in supporting the High Efficiency Video Coding/H.265. Quench your HEVC video converting thirst, but no more hang-up or crash under HEVC workloads.

Decode HEVC: Convert HEVC/H.265 to H.264, MP4, MOV, etc for better compatibility.
Encode HEVC: Encode MKV, MTS, M2TS, AVCHD, H264, especially the large 4K UHD videos into HEVC with higher quality but smaller size.

▶ Download Video & Music from YouTube & 300+ Sites

MacX is equipped with a fuss-free YouTube downloader that can download YouTube videos and 300+ sites like Facebook, Vimeo, Dailymotion, etc. Save videos, songs, playlists, TV shows, movies, gameplays, cartoons in 4K, Full HD 1080p/720p or so and convert YouTube to MP3, AAC, MP4, etc, so you can tailor it for use on whatever device. Make a backup of the online videos for safekeeping and watch videos offline without distracting ads or battling with slow network.

Note: Please download videos with authorized copyright. Any copyright infringing activities is not advocated.

◀ Capture Streaming Video/Record Anything on Screen

The **screen recorder for Mac** is ideal for recording anything on your Mac screen (specific region or full screen), from live streaming videos, tutorials, software presentations, to game walkthroughs. You can pair your creation with sound and save it as standard MP4, AVI, MOV, MKV, etc.

Unique! Record iTunes movie rentals and purchases in MP4 instead of M4V, whereupon you can have them played on even non-Apple devices and keep them permanently.

▶ World's No.1 Fast - 5X Faster than Others

The **1st and only one with level-3 Hardware Acceleration** - Compared with traditional converters that utilize hardware acceleration for video encoding only, MacX accelerates not only 4K/HD video encoding, but also video decoding and processing to a new level, powered by Intel® QSV, Nvidia® (CUDA/NVENC) and AMD. 5X faster than others.

Auto Copy - Reformat a video (e.g. MKV to MP4) like copy & paste. No re-encoding or quality degradation. It takes just 1 min to convert a full HD movie.

Hyper-Threading and Multi-Core - Enable multiple threads and maximize your CPU cores to fast-track the converting process to the utmost.

The plus point of having the tool is that it delivers the highest possible quality without pixilation problems or unwanted noise, thanks to the High-Quality Engine and Deinterlacing.

◀ A Flawless 4K Video Processing Experience

4K UHD contents climb with the growth of UHD device market, be it 4K TVs, smartphones, drones, cameras, or streaming services like YouTube. MacX leaps forward with seamless support on 4K UHD and delivers a fast **4k video conversion process** thanks to the HW acceleration tech.

Upscale HD to 4K for sharper image - In addition to upconverting SD to HD, MacX let you change video quality from HD to 4K to improve your viewing experience on 4K TV or UHD screens, thanks to the 4K upscaling algorithm.

Compress 4K to HD/SD for smaller size - Scale down 4K to HD 1080p or lower video resolution for viewing on non-UHD displays or reducing 4K video size to save space.

◀ Editing Video Is Easier than Ever

The video editor built in the Mac video processor is an added bonus that allows you to **rule over your videos as per your needs**. You can **convert just a part of the video** by trimming, crop the clip, merge multiple videos into a single file, add an extra subtitle, etc. No more worry about undesired commercials, black borders, or subtitle tracks. For a better result, you can tamper with the video resolution, codec, bit rate, frame rate, aspect ratio, and more.

▶ Transform Photos into Breathtaking Slideshow

Equipped with a photo slideshow maker, MacX spruces up your pictures and transform your memories into a breathtaking slideshow in a breeze. It magically blends photos with your own favorite music and convert JPG/PNG/BMP photos in just about any video format, e.g. MP4, MKV, AVI, FLV, etc, which you can share on YouTube, tablets, phones and more.

◀ Record Video from Mac's Built-in Camera or Webcam

The video recorder facilitates you to create instructional videos, capture Skype or Facetime calls, save webinar recordings, make YouTube videos, and more through Mac's built-in camera or externally connected webcam.

It saves the recordings to MOV by default and extends the use of them by freely converting it to MP4, H.264, MKV, AVI, etc to do more with it, like upload to YouTube, watch on iPhone iPad on the go.
